We VALUE and are COMMITTED TO

- The diversity of the people and communities we serve.
- Consumer control and choice in all we do.
- The pride and knowledge derived from the disability experience.
- A grass roots approach for social and systems change.

1. How does your personal philosophy align with our mission, vision and values?

2. What is your connection to people with disabilities and the barriers they face? (indiGO is a consumer controlled organization with Board and Staff comprised of at least 51% people with disabilities)

3. Board members need to be committed to a one-day orientation, quarterly ½ day meetings at various locations in the service area, 1-hour monthly conference calls, and an annual planning day. In addition, board members may serve on committees or attend trainings, meetings, etc that support our mission. Can you meet this commitment?
